

One Stop Service

Environmental

- Metals • Organics • Wet Chemistry • Ambient
- Air • Microbiology

Reporting

- Electronic Deliverables • Online Capabilities
- Levels I, II, III, and IV Data Packages
- CLP "Like" Data Packages
- TRRP Data Packages
- TCEQ Lead & Copper Rule

Profiles

- Priority Pollutants/Target Compound List
- National Pollution Discharge Elimination System
- Hazardous Waste Characterization
- Underground Storage Tank
- Land Application • National Drinking Water
- Fracking Profile • RSK-175 • Particle Size

Industrial Hygiene

- Organics • Metals • Asbestos • Mold • Pesticides
- Allergens • Endotoxins • Air Quality
- Hexavalent Chromium • Helium Diffusion Sampling
- Crystalline Silica by X-ray Diffraction (XRD)

Asbestos

- Bulk ID • Bulk Point Count • Fiber Count

Ambient Air

- ASTM D1946 • TO-11 • TO-14A • TO-15
- TO-17 • Method 18 • HRVOC
- TO-12 • Method 325B

Profiles

- Inorganic Acids • Aldehydes • Isocyanates
- Welding Fume Metals • PAH
- Indoor Air Quality

Microbiology

- Coliform • Legionella • Enterococcus • Mold
- Listeria • Escherichia Coli • Sewage Screen

Oil Field Monitoring (Pre and Post Frac Testing)

- Acid Producing Bacteria • Iron Related Bacteria
- Sulfate Reducing Bacteria • Methane In Water
- Low Nutrient Bacteria • Biocide Testing
- General Heterotrophic Bacteria, Slime Bacteria

Food Testing

- E.coli 0157:H7 • Salmonella • Listeria
- Yeast & Mold • Aerobic Plate Count
- Total Coliform • Enterobacteriaceae
- Staphylococcus • Big 8 (Allergens)
- Shelf Life Study • Air Testing Mold & Bacteria
